October, 2006

Unitarian Universalist Church  
4831 E. 22nd Street  
(one block east of Swan)  
Goddard Hall

Meeting October 7th at 10:30 am

## Speaker Alan Handelsman

Alan Handelsman works as a hypnotherapist, and is known worldwide as a speaker, presenter, workshop leader, and teacher. He is the developer of the Resonance Tuner™, which is in use in 49 states and 30 foreign countries. He has presented at conferences as far away as Switzerland, and Oxford, England. He has taught at the Ozark Research Institute's Power of Thought School three times. As a member of ASD, he has taught in Santa Cruz, Toronto, Phoenix, Flagstaff, Tucson, and has had his CD be the best seller at the national convention in Vermont. He is known for his warm, humorous style.

### **Dowsing and Life: Less Effort And More Results**

In this meeting, you will begin to:

- **Make dowsing (and life) easier and more effective.**
- **Find and remove your blocks to better dowsing.**
- **Get along better with your dowsing tool, and with yourself.**
- **Know the nature and extent of the control you never knew you had.**
- **Laugh more.**

**Alan will be holding a workshop on Sunday, October 8th on**

**"Dowsing for Romance, Finance, and Resonance"**

You are responsible for all the relationships in your life. Luckily, responsibility does not mean blame, it means power. Discover the power you have to enhance your relationships with others, money, work, play, energy fields, your past, future, thoughts, perceptions, beliefs, feelings, behavior, the universe, and yourself. This workshop will include parts of Alan's classes, including *I Never Thought Of It That*

Way and The Top Ten Reasons God Has A Sense Of Humor.

**Through new insight, experience, a free Resonance Tuner™, and plenty of laughter, you will leave this workshop changed, more peaceful, and more powerful.**

Workshop Fee \$75

Location: Sonoran Skies Center; 2055 N. Kolb at Tanque Verde, Ste. 131, 🇺🇸 (520) 721-0221

**EARLY REGISTRATION IS RECOMMENDED** Call Nancy 🇺🇸 (520) 578-3141 or Gary 🇺🇸 (520) 299-5543

Alan will also be available for individual sessions

\*\*\*\*\*

<p><b>Pot Luck</b></p> 	<p>Please bring something to share at our potluck lunch, which begins immediately after the speaker is finished on Saturday. As usual, the club will provide coffee and tea.</p>

**Our next speaker for the November 4th meeting**

CHARMION McKUSICK has been dowsing since she was 4 years old, for over 71 years. She dowses for information on a daily basis and is interested in all aspects of environmental harmony and has written several books on dowsing applications. In Charmion's presentation, "**DOWSING BALANCED POLARITY**", participants will learn the importance of balanced polarity which holds the entire Universe together. When this balance is disturbed, all kinds of things can go wrong. She will discuss environmental, manmade, Feng Shui and behavioral considerations in the balanced and unbalanced states.

Members of the Tucson chapter of ASD  
Teaching the Children to Dowse etc.

At a chapter meeting earlier this year and later in an article in one of our newsletters, I talked about having a free workshop for children to learn how to dowse, communicate with all things ( particularly adults) and to expand and retain the intuition they were born with.

Having attended the West Coast conference in June /July I was impressed with the children's program run by the dowzers for the children of people attending the conference. I was happily surprised at the interest shown by the children in finding missing objects/ animals/people and their relationship with the deer on the campus. Their overflowing enthusiasm generated the impression that they were having a lot of fun. It is rare that we see happy children sharing their experiences with others in a co-operative manner-not easily achieved in the present unsettling environment.

Will any members who have children or grandchildren, whom they think would enjoy and benefit from such an experience please contact me at  520 575 6693 or [bdisbury@comcast.net](mailto:bdisbury@comcast.net) for more information. The Workshop would be held on a Sunday from 2 to 5 pm once we have established the number of children available for an afternoon of fun...

Brian Disbury

**West Coast Dowzers' Conference**  
**June 30 - July 5, 2006**  
University of California Santa Cruz.

The conference, this year, was held in Porter College, where the early conferences took place. "Old Timers" were glad to be back in familiar surroundings with pleasant memories of times gone by. Next time, in 2008. we shall be back at college 8.

Some 370 people attended the conference including 12 children for the children's class. They all had a great time and it was so rewarding to see them having so much fun. As one of the teacher's explained, "She wan't sure who had the most fun,the adults or the children!".The teachers did a wonderful job.

Some 60 speakers made their presentations over the 4 days of lectures, many of them traveling from outside California at their own expense to teach us. The quality of the talks was exceptional and we learn a lot in a very short space of time. Attendees will

tell you of their favorite subject which they discussed well into the night at the Hospitality suite which was open each evening after all functions had ceased at 9 pm.

For those of you have never been, I strongly recommend that you go to the Southwest conference in Flagstaff Next October and/or the West Coast in June 2008.

Happy Dowsing
