

The Tucson Chapter of the American Society of Dowsters
A Non-Profit Organization

Saturday March 3, 2007 10:30 AM
Unitarian Universalist Church
4831 E. 22nd St (1 block east of Swan)
Registration 10am
Suggested Donation of \$5
would be appreciated

Wallace G. Heath, Ph.D.

Dr. Heath studied physics and biology at UC Berkeley and UA Tucson from 1950 to 1962, receiving his Ph.D. in zoology with minors in physics and mathematics. He was Science Advisor to ASD, 2003 to 2005. He is president of Heath Technologies, Inc. and serves on the board of Energy Fitness Systems, Inc. He has invented instruments with applications for locating a wide range of substances at great distances and depths. Dr. Heath's approach has been to begin with the wonderful work of Dr. Zabo J Harvalik (Science Advisor to ASD, 1970's and 1980's) as well as others and build on that with some of the modern knowledge of physics, biology, and "subtle energies".

**Touch, Feel, Use, Measure, and Map Earth Energies for
Security, Health and Wealth**

Learning and applying the well-established scientific basis of dowsing greatly expands the enjoyment, skills, range of subjects, results and personal fulfillment for dowsters. It makes dowsing easier, more certain, and very understandable both physically and psychologically. Yet it enhances the sense of magic, wonder, and amazement at the increased quantity and quality of dowsing experiences.

After reviewing the basic physical, physiological, anatomical

and psychological components of some of the well-understood mechanisms of dowsing, one then can grasp the beautifully integrated symphony of human/earth relationships. These include the magnetic organs, the earthpulse, human energy fields, earthquake prediction, ley lines, other energy lines (Hartman, Curry, seismic, noxious, etc.), effects of these on health, converting the earthpulse to healing energy by meditative control of brain wave frequencies, locating objects and substances (people, plants/animals, minerals, metals, water, etc.) at a distance, the use of radio frequencies for health and healing, and improving psychological and spiritual enhancement and support.

All information is aimed at improving individual performances.

WORKSHOP Sunday, March 4, 2007 9:30 - 5:00

Methods and Techniques for Applying the Scientific Basis of Dowsing

Simple materials locally and inexpensively available are used and supplied to build transmitters that can reach out various distances to locate specific targets such as water, plants, animals, minerals, metals (including gold!), and people. They can be also be used to measure the strengths of human energy fields in relation to earth energies, health, emotions, noxious energies, and many different environmental and human influences. Each person can build and use an instrument. Simple "L" rods can also be used (and built if necessary). Each participant may take their instrument home with them for their own uses. These instruments cannot function without a human dowser as the sensor. Many details to maximize their effectiveness are given based on many years of experience and invention.

Also, very elaborate instrumentation will be demonstrated to illustrate their great potential for healing, searching, seismic locating, underground water mapping, map reading, prospecting, medical diagnosis, geothermal exploration and locations, etc. This workshop will be done both indoors and outdoors.

Workshop Location: On the desert property of Nancy Sharpnack., 5051 S. Caballo Road. Directions: take I-19 to Irvington exit. Turn west (right) and go 4 miles to Caballo. Make left turn and 5051 is 4th house on left--large

numbered sign on utility pole. Take lefthand fork in driveway. Nancy's phone  (520) 5... . Please carpool as parking is limited. Wear appropriate clothing for walking in desert.

RESERVATIONS RECOMMENDED: Call Gary at  (520) 299-5543 or Nancy at above number.

Workshop Fee \$40

pot Luck

Please bring something to share at our potluck lunch, which begins immediately after the speaker is finished on Saturday. As usual, the club will provide coffee and tea.

Marge Hefty will be holding hold the following dowsing classes:

Pendulum Dowsing March 17 at 9:30 am

L-Rod Dowsing March 17 at 12:30 pm

Map Dowsing March 18th 1:00 pm

These will be at her home at 5926 Lee Street (4 blocks north of Speedway halfway between Craycroft and Wilmot). Each class is \$25 and includes the needed materials.

Call Marge for reservations at  520 885-1100 .

Our April Speaker

Martha Moore Stevens was born on a Texas farm, had a mystical healing experience at age five and learned hands-on healing as a child. She is a graduate of Jose Silva's Mind Control course, is a licensed Science of Mind Healing Pratitioner, studied Prana healing and Reiki and took a four-year course from the University of Healing in Campo, CA. She works with the California Pacific Medical Center in the Complementary Medicine Research Inst. on Distance Healing. She has been a speaker many times at ASD conferences and the Ozark Research Institute's Power of Thought schools.

Due to Martha's schedule she will return after the ASD conference in Flagstaff in October to teach Esoteric Healing Levels I , II, III. This course is from Alice Bailey book, Esoteric Healing and is certified for college credit.

Our May Speaker

Karen Ashley MA. ND, co-Director of WCC and Founder/Director of the Youth Program at the bi- annual Dowsing Convention in Santa Cruz CA, will be talking to us on Saturday May 5th on " Passing the Pendulum- A Children's Dowsing/Intuition

program ".

Children are the future of this planet, are naturally intuitive and pick up dowsing easily when young; before peer pressure and teaching by cynics convinces them that it is all nonsense.

The children will need all the skills that they can muster to stabilise their existence in the coming years and Intuition through Dowsing will help them to be in touch with any changes that will take place before they happen.

The talk on Saturday is to present ways in which parents/relatives can support and encourage their children to be aware of what is going on. This will be followed by a Free Workshop on Sunday where parents/relatives will work with the children through the program. It can be just as rewarding for the adults if they listen to their children and they will all have a great time. I know that I am lucky to have learned a lot from my grandchildren.

The location and time for the Free Workshop on the Sunday will be announced later.

Karen is an holistic Health Facilitator and has been on a lifelong journey into an in-depth study of Dowsing, Kinesiology, Energy healing, Face reading, Soul Energy Reading, One Brain, Flower Essences and any thing else that assists humanity to a deeper level of awareness.

Will those interested in working in the program please contact Brian Disbury at 575 6693 or bdisbury@comcast.net

INSTITUTE OF NOETIC SCIENCES (IONS)

Friday, March 2, 2007 6:30pm to 8:30pm

Marshall Auditorium at Tucson Medical Center Grant Road at Craycroft)

Donation: \$5.00 per person

Speaker: Mark Evan Furman

"Escaping The Mind Prison"

Information: 326-1894 or www.ionstucson.org

2007 Dowser's Schedule

Date	Speaker(s)	Topic
March 3	Wallace Heath	Touch, Feel, Use, Measure, and Map Earth Energies for Security, Health and Wealth
March 4	Wallace Heath	WORKSHOP: Methods and Techniques for

		Applying the Scientific Basis of Dowsing
March 17	Marge Hefty (at her home 9 am)	Pendulum Dowsing
March 17	Marge Hefty (at her home 12:30 pm)	L-Rod Dowsing
March 18	Marge Hefty (at her home 1 pm)	Map Dowsing
April 7	Martha Moore Stevens	TBA
April 8	Martha Moore Stevens	The Power Within the Human Instrument
May 5	Karen Ashley	Passing the Pendulum- A Children's Dowsing/Intuition program
