# "FOCUS your ATTENTION to achieve your INTENTION"

...WITH SANDEE MAC

Now that "THE SECRET" (the movie) is out, how can we enhance our success even more? Paramount to our success as healers, dowsers, or practioners.... actually in any area of success in our life, is the ability to effectively FOCUS our mental attention. This sounds so simple & elementary; we have a tendency to dismiss it as a skill to be mastered. Yet if you can imagine hitting the side of a barn with the scattered buckshot of a shotgun versus the precision of a laser beam, you can begin to picture the range of effectiveness that is possible.

Sandee will share with us several techniques to very specifically OPEN, FOCUS, and DIRECT your mental awareness and perceptions. In addition we will discover how to use your intention to CAUSE the EFFECTS you desire in your projects and in your life. These skills will elevate your accuracy, precision, and accomplishments in healing, dowsing, or literally any area you choose!

Finally Sandee will share several handouts to support your SPECIFIC skills to improve your DOWSING skills and accuracy, answer questions, and give direct COACHING, if desired.

In this increasingly accelerated, computerized, high-tech world, why not up-grade the precision of your own incredible MIND? Lots of fun and of course handouts.....we will see you there!!!

**Pot Luck**

**Please bring something to share at our potluck lunch, which begins immediately after the speaker is finished on Saturday. As usual, the club will provide coffee and tea.**

**WORKSHOP WITH SANDEE MAC**

## A SHAMANIC DAY OF POWER

Sunday, January 6th

Are you ready to discover, gather, and utilize Power from the realms and dimensions of the Shamans and Medicine People of Old? We will learn to open Sacred Space, request assistance from the Apus and Luminous Beings, and learn the geography of the Three Worlds. We will learn to journey safely into the Lower World to do a Soul Retrieval to recover and integrate lost parts of our Essential Self., and then meet our powerful Spirit Helper. This Totem Animal will always be available as a powerful resource for our work and spirit journeys. Everyone has a Luminous Body that can be seen and definitely felt, and when appropriate, even released. We will then learn how to skillfully and compassionately assist our loved ones on their Final Journey, because we have already traveled there ourselves. This will be a memorable day of Power, gaining valuable skills we will use again and again. Traditionally these were only shared after many years of dedicated apprenticeship, so don't miss this unique opportunity. Register now.....space is limited.

Bring mats or pillows to work on.

Location: Comfort Suites (corner of Sabino Canyon and Tanque Verde)

### PRIVATE SESSIONS WITH SANDEE

This is to give you an overview of what to expect during a private session with me, so that we can optimize our time together to help accomplish your goals. First let me clarify that I am NOT “PSYCHIC” or have any special “GIFTS” of any kind. I use an ancient skill known as dowsing and a pendulum to access information. I also have over 30+ years of experience & continued classes and trainings in a wide range of related areas to enhance and add to my skills, knowledge, and data base. I have spent literally hundreds of thousands of dollars to get the best training from the best teachers I can find, often even

in other countries.

I believe my background in Criminology, unique birth chart, insatiable curiosity, and seemingly endless questions inspire me to always look behind the scenes or under the surface for the evaluations and solutions to your individual situation.

Initially, I may take a brief history or ask some specific questions to give me an overview, and find out what YOUR goals or expectations are for the session. Then I will dowse from a list of over 75 tools or techniques I can work with to help achieve your goal. We may do some kinesiology or muscle testing to see what YOUR system requests we do, and in what priority. Finally I will explain the processes, and we get to work. We will do as much, as fast a pace for your comfort as we have time for in the session. The work may include such diverse things as past life regression, removing energetically old embedded objects, shamanic soul retrieval, emotional clearing, trauma resolution, neutralizing allergies, changing limiting core beliefs, hypnosis or Higher Self work, releasing confused or interfering energies, or clearing genetic or family patterns. I may give you some Flower Essence remedies, or suggest some homework to do to support your success.

Some clients want to only explore their past lives; hence we will specifically focus on that work. Usually I will offer to audio tape it for you, and we may be able to tap in on the key information of 10 or more past lives in a single session! We can cover a variety of lives relating to for example: significant relationships, fears & phobias, talents, interests, health concerns, times or places in history of Interest, spiritual development and recurring dreams, to name just a few. Generally I don't tape the other sessions, but can if you request, or you are welcome to bring your own equipment. Also some clients want a

friend or partner to sit in on a session, and that is fine with me, if it is with you, knowing some intimate things may come up.

My personal philosophy is that most issues or concerns can be resolved, although not always in an hour or two. I do believe I can see and hold a Higher Vision of possibilities for a person, even when they can't for themselves, and assist you to achieve it. I am committed to teaching and empowering YOU, not making you dependent on ME. I consider myself more of a teacher or facilitator rather than a healer, yet at times remarkable healings have occurred. I consider chronic patterns or problems as more multi-dimensional rather than having just one cause or solution, so I may approach them with several techniques from several perspectives. I don't believe change has to be painful or take a long time.

My sessions run an hour and a half to two hours, unless otherwise indicated. I try to be fast, efficient, and feel I can communicate unusual or complex information in terms you can understand. I endeavor to "climb inside of your reality" to understand where YOU are coming from. I consider myself compassionate, generous and patient to support you making change. I look forward to us working together and serving you to accomplish your finest Dreams and Goals!

Thank you.
