Jack Baxter will be the speaker

Energizing Food for Increased Nutrition

Jack will discuss installing Walt Woods' Food Program. Because we are experiencing declining nutrition in our food supply, Jack will share a technique of energizing our food for nutritional purposes.

Jack began dowsing and exploring water dowsing in Virginia over 25 years ago, and served as Vice-President and President of the Zaboje Harvalick Chapter of the ASD while there. Now that Jack lives in Sedona, he is currently serving as Vice-President for the Verde Valley Chapter of the ASD. He has worked on several well-drilling projects with Ed Stillman, and on his own. as Vice-President and President of the Zaboje Harvalick Chapter of the ASD while there. Pot Luck

Please bring something to share at our potluck lunch, which begins immediately after the speaker is finished on Saturday. As usual, the club will provide coffee and tea.

(We do NOT Endorse Any of our Speakers/Writers or Their Views. Our Sole Purpose is to bring New Ideas to Your Attention)

We are fortunate that our board members:

Kay Eacker, President
Steve Klunk, Vice President
Terry Klunk, Secretary
Jean Villmer, Treasurer

Have all agreed to serve for another year.

However, we can accept nominations from the floor if anyone wishes to be an officer.

2008 CONFERENCE — July 4-9, 2008

"Dowsing: Our Resonance with the Earth"

Join us for the 2008 West Coast Dowzers' Conference, a very special gathering of our dowser family to be held July 4-9. We will be convening once again at the University of California at Santa Cruz, a beautiful setting on a high slope overlooking the ocean and surrounded by grasslands, redwood groves, and live oaks. Santa Cruz is a popular resort destination, and offers optimum weather conditions with cool mornings and evenings and sunny afternoons. It is located about 40 miles north of Monterey and 75 miles south of San Francisco.

Each year we offer two levels of dowsing instruction in our School: Basic and Specialized Applications. There are post-conference WORKSHOPS available and our very own unique Santa Cruz Energy Voyage TOUR. Each of these links will take you to the 2006 Conference offerings for your perusal.

Our presenters are drawn from the dowsing community and many have professional speaking experience. Each of the four class periods during the day offers up to six topics to choose from. Please see the previous speakers and topics, from the 2006 Conference.

Choose one of the workshops or join our Energy Voyage Tour, and set aside the last day of the Conference for an in-depth all day learning experience offering inspiration and enlightenment! These Workshops and Tour will run concurrently. Go to 2006 Conference for an view of our past workshops given by Michele Fitzgerald, Joey Korn, Cindy Pavlinac, and Pat Dornik and Barry Smith.

Each full day also includes evening events such as our Keynote Presentation and of course, Fun Night. You are invited to bring your favorite party hat, dancing shoes, musical instruments and costumes to participate in the fun. The Hospitality Room is open in the evening and all are welcome to gather and enjoy good company, with nightly drawing for lots of great prizes! This offers ample opportunity then to meet and socialize directly.

OUR CONFERENCE is a wonderful opportunity to spend time away from

daily routines and be surrounded by interesting people and ideas.

A workshop teaching dowsing to children and grandchildren of attendees will be held free July 4 - 6.

We look forward to seeing you in Santa Cruz.

RATES RISE after May 12th. Register now.

**TUCSON DOWSERS
GENERAL MEETING
SATURDAY, APRIL 5, 2008, 10:30 AM
Unitarian Universalist Church**

SPEAKER: Michele Fitzgerald
"The Coming of Grace"

President Kay Eacker informed the group of the following:

Dowsing Discussion Groups are continuing the third Thursday of each month at the homes of Terry Klunk (Northwest), and Marge Hefty (Central), from 7:00-8:30 PM. For more information, contact Marge at 885-1100, or Terry at 531-8039.

A few items have been found after recent meetings: A pendulum in a leather pouch, and a heart pendant necklace. If these belong to you, check at the Library table.

Several of the same announcements have been made month after month. Rather than take up valuable time with this repetition, please check the website for the most current information.

Kay introduced Dr. Damaris Drewry. Dr. Drewry teaches Vibrational Medicine and Sound Healing. She was guided to attend our February Meeting, where she discovered that she's been body dowsing and didn't know it. She did a brief presentation on how she uses her voice to locate blockages and clear them using a volunteer from the group. She also used her voice to clear the energy in the room. Kay introduced Michele Fitzgerald, a dowser for many years, and a world traveler. Michele resides in Sedona, which is a major earth power spot.

Michele explained that her research and the information she has received, leads her to

believe that we are moving into en-light-enment.

The position of our planet and stars will amplify consciousness. She said there will be a complete replacement of the existing planetary grid

system (a very rare occurrence). A combination of events will restore this planet to a place of peace—the process will take about 2000 years.

The pivotal events that began this will occur over the next five years. To prepare for the changes over the next three to four years, you can:

strengthen your body; don't buy into negative chatter; manage your mind and emotions; simplify your lifestyle; spend more time with nature and animals; and create a sanctuary for yourself.

Marge Hefty's birthday is April 8th and she provided a birthday cake for all the April babies. Happy birthday was sung by the group. A pot luck lunch followed Michele's presentation. Thank you to all who brought dishes to share.

Respectfully submitted,
Terry Klunk,
Secretary
