It is known, that without her and her late husband, Homer Hefty, we would not be the Tucson Dowzers we are today. Come help us welcome and acknowledge her.

THE DOWSERS TOOL CHEST

We all have favorite tools for different kinds of problems. The basic tools are pendulums, bobbars, Y rods or L rods. Then come the intangible kind that you pick up at conferences and from individuals who have stories to tell or your own personal experiences. Some of this knowledge and awareness will help broaden your outlook in trying new ways to improve your dowzing results. There will be information about how expanding your intuition will help you and different ideas on other intangible tools can be added to your tool chest.

MARGE HEFTY BIO

MARGE HEFTY first encountered dowzing when she married Homer, also a dowser, and

has been learning many facets of dowsing over the last 40 years. She and her recently deceased husband first used used dowsing in remodeling their home and since then in dowsing for water well sites in Arizona and New Mexico. In turn this lead to working with color and checking positive and negative energies in homes (Geomancy). Past President and founding member of the Tucson chapter, currently helping with newsletter and teaching basic pendulum and field dowsing classes. Marge has been privileged to teach many classes at ASD Southwest Conferences in Las Cruces, Flagstaff and the West Coast Santa Cruz. Also over the past decade has spoken to chapters in Phoenix, Globe, Sedona, San Diego, Montrose, Colorado and Ozark Research Institute in Fayetteville, ARK. In December of 2004 was privileged to teach basic and advanced dowsing classes in Tel Aviv, Israel. During the last ten years, the use of map dowsing has been a vital addition to finding water and locating harmful energies on property and around homes.
