**COMMUNICATION WITH ANIMALS  
with Linda Johns**

Join us in a fun and informative lecture to discover all about animal communication. Anyone can develop this skill. Learn how to recognize which senses of your body/mind are being used as receivers to hear the animal's thoughts. Linda will share a technique of becoming a surrogate or proxy for your animal in order to facilitate healing, by using muscle testing to work with the subtle energy field of the animal.

**WORKSHOP  
ANIMAL COMMUNICATION: LEVEL I  
with Linda Johns**

**Sunday, November 2, 2008, 10:00 AM-4:00 PM  
\$75.00—Location TBA**

Learn techniques to awaken your natural ability to communicate with animals. Through hands-on exercises and guided meditations you will learn the three skills necessary to develop your abilities. Linda will share the steps that she uses to connect with animals

and to gather information on their behalf. In this class we will practice by reading photos, working with animals from a distance, and looking at behavior modification. We'll also experience tapping into the higher collective consciousness of whales.

Please bring a few photos of animals to share in the class activities.

*(We do NOT Endorse Any of our Speakers/Writers or Their Views. Our Sole Purpose is to bring New Ideas to Your Attention)*

To all ASD Members

ASD is shifting to electronic communication of most membership notifications; this saves ASD approximately \$1500 per mailing. If you have not yet sent your email address to headquarters, please do so. Send to [asd@dowers.org](mailto:asd@dowers.org) In your email, please specify that you are a member and wish to be placed on the membership email list. Email notifications are sent only to members of ASD.

**Pot Luck**

**Please bring something to share at our potluck lunch, which begins immediately after the speaker is finished on Saturday. As usual, the club will provide coffee and tea.**

## **WHY COLOR BLUE IS IMPORTANT FOR DOWSERS**

**By Marge Hefty**

Most of us have heard the terms sky-blue or midnight blue which bring to our mind certain shades of blue that are being discussed. Also, in a blue funk denotes a kind of depressed feeling. When we think about blue for healing or calming of nerves we carry this thought forward to stretching our box we live in. Blue is also the color of the throat chakra and if I am leading a discussion I endeavor to wear blue around my neck. It relaxes and

calms. Then indigo blue is the color used for the third eye and this is a powerful hue for dowzers.

During a Tucson discussion group session this year, I realized that one of the basic discoveries regarding dowsing cures was not being talked about to the new dowzers. The color blue is held in high regard by many dowzers because of its properties that we can use in our corrections.

The first time I became aware of blue was when Cameron St. John discussed it at one of our first Tucson chapter meetings in 1985. He stated that if a paved road kept developing a pot-hole in the same place, to toss some blue marbles in the hole before it was patched. This would fix the problem. The belief being that earth gases (radon) were being emitted which would be disbursed by the blue.

Another of our members was building a home in Tubac, south of Tucson. Thru using "L Rods" Jack Livingston and Oscar Branson confirmed that the lot was full of harmful energy lines. They were everywhere. So the owner drove to Nogales and at a glass manufacturing plant bought up flawed indigo blue gas bottles and blue tile. Upon breaking this up placed it all thru the foundation base and floor before the cement was poured. After the home was completed and checked, only one line about 6 inches long existed in corner of home and all others were clear and no longer harmful.

Homer and I heard of other dowzers placing broken Philips Milk of Magnesia bottles (indigo) around building foundations in Kansas and mid-west, so when we were well site dowsing, we would pass this information along. Many of our clients were just starting to build a home and we would tell them the color they needed was indigo blue. Ask the pendulum or L-rods how close together the marbles need to be, probably 4 to 6 inches.

When doing geomancy for homes already constructed, you can do this by using blue marbles around the outside of the foundation and digging them in after asking the pendulum or rods how close together they need to be. If a person can dowse with "L Rods", after a harmful energy line has been located, it is possible to cure that by making a half circle across the line with blue marbles. Do this on both entry and exit of line thru the house to negate the harmful energies and protect your family. There are times you can place a blue glass vase in a window sill to effect a cure. Also, a piece of blue automotive tape under the edge of a rug will work. Maybe this works because you know it is there! Many of us dowzers place a strip of blue tape inside the trunk of our car and another inside the hood to protect from collisions.

Most recently, my work with maps has included geomancy showing the lines of water energy and energy lines harmful to people that exist in and thru their homes. Using a blue pen to draw in the cups, usually three, across the entrance and exit of the energy lines will stop the flow of harmful energies. Again use the indigo blue pen. Many have told me that they could feel the peace and calming effect. This will protect your project as long as the map is saved and stored.

When Robert McKusick, spoke to our chapter, he mentioned that light bulbs used to have a cobalt blue (indigo) base between the electricity and filament. Look at a light bulb now and the base is black. This tells us that some of our protection

was eliminated probably because of cost of cobalt or knowledge lost thru time.

How does this work? Does it matter as long as we can use it? Every once in awhile we can get an ah-ha! This happened for me when Joe Smith was explaining map dowsing. Joe stated that he was teaching a class how to do this and one lady that was present reported that when actually working on the map Joe's aura moved away like it was going to the actual map site. I had been wondering how this could be working for me on maps and when I physically located the same place on the land within about 15 to 25 feet.

Recently I learned that in studies of the eye and brain we may have a glimmering of an answer. Part of the eye makeup are red, yellow and blue receptors. The eye has a yellow tint in front of these receptors that screens out the blue. Your mind has to create the blue a different way, as it is tuned to contrasts. This was another ah-ha for me. We individually have to make more effort and thus are creating something. Could this be why blue is so powerful as a healer?

Once you are aware of this dowser "tool" I hope you use it and pass along any stories to your chapter and raise their awareness also.

## **DOWSING CLASSES TO BE HELD NOVEMBER 15TH**

**By Marge Hefty**

The pendulum class will be held November 15th at 9:30 a.m. for a cost of \$25. The field dowsing or "L Rod" class will begin at 1:00 p.m. at a cost of \$25. If you are attending both classes please bring a sack lunch. You must have the pendulum class before attending any of the other options. If there is enough interest, I can teach a class in map and well dowsing on Sunday November 16th at 1:30.

Please sign up at the November 1st meeting. Classes will be limited to 15 students. As in the past I will hold all the classes at 5926 E Lee Street. I seem to know where most of the pipes are buried there. Call me at  520 88... to reserve your space or if you have any questions.

Divining Mind [www.diviningmind.com](http://www.diviningmind.com)

There will be a  
cork board available at each meeting, where you can post any dowsing  
questions. These

will be answered at the meetings or in the newsletter. You

may also leave your brochures on the table. You

will need to pick them up afterwards as there is no place to store them.

Marge Hefty has

a library of dowsing books in her home. If you are interested in looking at  
or referring

to these books, contact Marge at 885-1100. These books may not be taken  
home,

but Marge will let you read them there.

**TUCSON DOWSERS  
GENERAL MEETING MINUTES  
SATURDAY, OCTOBER 11, 2008, 10:30 AM  
Unitarian Universalist Church**

SPEAKER: Marge Hefty  
"The Dowsers' Tool Chest"

President Kay Eacker informed the group of the following:

We want to teach everyone to dowse, and encourage everyone to learn how. We will be giving gifts this season to help you do this. Today everyone got a sheet on "Guidelines for Dowsing."

Next month's speaker is Linda Johns, a local Animal Communicator. She will be doing a workshop on this.

Marge Hefty will be teaching dowsing classes at her home: Pendulum class is Saturday, November 15th at 9:30 AM for \$25.00; Field dowsing or L-rod class is Saturday, November 15th at 1:00 PM for \$25.00. Call Marge at 885-1100 for more information.

Vice-President Steve Klunk spoke about the Children's Program planned for the future, and asked everyone to sign up their young relatives and friends. The program will be open to all children and parental consent will be required for this free program.

Kay introduced our speaker, Marge Hefty. Marge was nominated by ASD for Dowser of the Year for 2008.

Marge spoke on the traditional tools of pendulums, L-rods, Y-rods and Bobbers, and ways to use them. She also touched on various topics, such as colors, crystals, geomancy and Feng Shui.

To encourage participation, Marge reminded everyone of the Dowsing Discussion Groups held the 3rd Thursday of each month at her home and that of Terry Klunk. It's a great opportunity to talk about how to use dowsing in your everyday life.

A potluck lunch followed Marge's presentation. Thank you to all who brought dishes to share.

Respectfully submitted,

Terry Klunk,  
Secretary
