Body Dowsing: use your voice to scan another person's body (or your own) and find it's resonant frequency. Research shows that this unique frequency changes brainwave patterns and activates the body's natural tendency to return to a normal state of balance, health and well-being. PLUS - Learn 7 ways to ground, center, calm, and energize yourself with your voice. See Sunday December 7 for \$45 workshop.

PRESENTER: Damaris Drewry, PhD is an innovator in Sound Healing, Vibrational Medicine, and Energy Psychology. In private practice she specializes in quantum leaps in personal growth and healing. She is recommended by Dr. Stanley Krippner, Dr. Jeffrey Thompson, Don Campbell (The Mozart Effect), Holistic Nurses (AHNA), Noetic Sciences, Energy Psychology Assoc. (ACEP), ISSSEEM (Subtle Energy Medicine), hospices, and churches.
