New developments in the Geobiology Tools and their applications in the remediation of negative and noxious energies will be discussed. Tool integration with various combinations of Holographic Waveforms in devices such as the Vibemachine, the MultiWave Oscillator, and Personal Space Clearing Devices will be presented as well.

David Hmptn is one of the original four member Team of Slim Spurling, Bill Reid, Bob D., and Mr. Hmptn who researched, developed, and manufactured the Geobiology Tools in the rush after Drunvalo was introduced into the equation in May of 1996. Mr. Hmptn manufactured ALL the Geobiology Tools by hand until the end of '96 when volume became too great for that. All the Harmonizers out there were made by hand by Mr. Hmptn until August 2005. Although philosophical differences have long ago dissolved this talented group Mr. Hmptn remembers Slim Spurling fondly and honors his passing and contribution to this work by continuing the research into this cutting edge field.

**YOU ARE INVITED TO ATTEND ON SATURDAY MARCH 28,
2009**

**5TH ANNUAL CIENEGA WATERSHED CELEBRATION 10:30 AM
TO 3:00 PM "WATER IN THE DESERT: SEEN AND UNSEEN" AT
COLOSSAL CAVE MOUNTAIN PARK**

The Tucson Dowzers have been invited to participate and we will have a table along with many other organizations from the Southern Arizona Area. This sounds like a fun outing for your family as it will be held at the ranch at the end of the Old Spanish Trail. Another way is to take the Vail exit off of I 10. We were told that there would be food available and to bring the children. At our table we will talk about dowsing and have handouts. During the hours open there will be talks given by the different groups to explain and answer questions. Since many people have never heard of dowsing before, we hope to enlighten our friends and neighbors and give them demonstrations. Last year they had attendance over 500 and many of them children. Hopefully we can get a list of children who would like to take a class. One of our main functions is to teach our art to the children.

Kay and I will need help from any of you who can give maybe a half hour to man the table. The ranch is in a beautiful setting - has plenty of parking - there is some walking so wear comfortable shoes. Contact Kay at the March meeting or give her a call at  520 615 7532 . Marge can be contacted at  520 885 1100 . We will appreciate your help.

Yours in dowsing, Kay and Marge
