Dr. Sheldon Deal

**“THE
BIOLOGY OF
PERCEPTION”**

Your perception determines your
reality!

This is illustrated by using Applied
Kinesiology, which is a form of
dowsing.

A short course on using Applied
Kinesiology will be included.

Dr. Deal became keenly interested in nutrition in 1960, when he met Dr. Bernard Jensen, whose ideas dovetailed into his already well-established activities in physical fitness.

Twice, in 1968 and 1970, he has been honored as the only member of his profession to be invited to the Chicago Nutritional Seminar sponsored by Brunswick and Bio-Assay Laboratories.

For 30 years he has been giving weekly lectures, free to the public on nutrition. These lectures were put together to form his two published books, “New Life through Nutrition” and “New Life Through Natural Methods.”

Dr. Deal has very strong feelings regarding nutrition and physical fitness. Probably this is most reflected in the fact that he strives to be as physically fit as he possibly can for he feels a Doctor should be the example for his patient and those who look to him for this guidance in the fascinating field of nutrition.

(We do NOT Endorse Any of our Speakers/Writers or Their Views. Our Sole Purpose is to bring New Ideas to Your Attention)

Pot Luck

SPEAKER: David Hmptn

"New Adventures in Geobiology Research"

President Kay Eacker made a few announcements (for details contact Kay at 615-7532).

There is a course on Tuning Forks being offered in Bisbee on June 6 & 7 for \$275.00 (if paid by May 6th). 18 CEU's available for Nurses and Massage Therapists.

5th Annual Cienega Watershed Celebration at Colossal Cave Mountain Park on Saturday, 3/29. Tucson Dowers will have a table.

Dowsing Discussion Groups are ongoing on the 3rd Thursday of the month from 7-8:30 PM, at the homes of Marge Hefty (central) and Terry and Steve Klunk (northwest).

We could always use additional help before the meetings setting up chairs, helping out in the kitchen for the potluck, and tearing down after the meeting. We appreciate it.

On Saturday, March 21st, Marge Hefty will teach a Beginner's Dowsing class in the morning and an Advanced class in the afternoon. Contact Marge at 885-1100 for more information.

Harriet expressed gratitude for the energy and support offered during the January meeting. She felt she was helped more by the Dowzers than the Medics.

Our Vice-President, Steve Klunk, had a few comments:

We are always looking for new books for the Library table. If you have any suggestions or recommendations, let Steve or Terry know.

Steve asked if there were any other nominations for officers for next year. Elections will be held at our April meeting. So far we have:

President—Steve Klunk
Vice-President—Joe Seymour
Treasurer—Dan Jones
Secretary—

Since there were no further volunteers, the nominations are now closed.

Kay introduced our speaker, David Hmptn.

David, who worked with Slim Spurling in developing a number of tools, shared information on his research on Holographic Wave Forms, and Harmonizers, and other devices. He demonstrated a device that could be used to detoxify military returning from service. David believes the Russians are far ahead of us in this type of research.

A potluck lunch followed David's presentation. Thank you to all who brought dishes to share.

Respectfully submitted,

Terry Klunk,
Secretary

YOU ARE INVITED TO ATTEND ON SATURDAY

MARCH 28, 2009

**5TH ANNUAL CIENEGA WATERSHED CELEBRATION 10:30 AM
TO 3:00 PM "WATER IN THE DESERT: SEEN AND UNSEEN" AT
COLOSSAL CAVE MOUNTAIN PARK**

The Tucson Dowzers have been invited to participate and we will have a table along with many other organizations from the Southern Arizona Area. This sounds like a fun outing for your family as it will be held at the ranch at the end of the Old Spanish Trail. Another way is to take the Vail exit off of I 10. We were told that there would be food available and to bring the children. At our table we will talk about dowsing and have handouts. During the hours open there will be talks given by the different groups to explain and answer questions. Since many people have never heard of dowsing before, we hope to enlighten our friends and neighbors and give them demonstrations. Last year they had attendance over 500 and many of them children. Hopefully we can get a list of children who would like to take a class. One of our main functions is to teach our art to the children.

Kay and I will need help from any of you who can give maybe a half hour to man the table. The ranch is in a beautiful setting - has plenty of parking - there is some walking so wear comfortable shoes. Contact Kay at the March meeting or give her a call at  520 615 7532 . Marge can be contacted at  520 885 1100 . We will appreciate your help.

Yours in dowsing, Kay and Marge

A WISE LITTLE GIRL

A certain little girl, when asked her name would reply "I'm Mr. Sugarton's daughter."
Her mother told her this was wrong, she must say "I'm Jane Sugarton"
The Vicar spoke to her in Sunday School and said "Aren't you Mr. Sugarton's
Daughter?"
She replied, "I thought I was but mother says I'm not."

A sergeant in charge of the new recruits ordered "Men when I blow the whistle, I want
you to shoot at will.
At that very moment, one very frightened recruit broke ranks and ran across the
grounds until he was out of sight.
"Who was that? Where's he going?" bellowed the Sergeant.
"That was Will", yelled one of the recruits.
