Celebrating Our 25th Year!

Sandee Mac

**“WALKING IN TWO
WORLDS ...**

BRING YOUR PENDULUM!”

History shows us evidence that dowsing has been used for thousands of years, and by many civilizations. From any perspective we are in times of massive change, and are perhaps even more vulnerable because of our dependence on technology. As Dowsers we have an outstanding advantage. Wisdom invites us to visualize only the positive, yet prudence says we must be prepared for other possibilities. How can we walk in both worlds at the same time? Together we will discuss some very real concerns, and like good scouts, learn through handouts, information, brainstorming and our dowsing tools. Come with questions, ideas, and your favorite pendulum, for this lively and important meeting.

Sandee Mac has been dowsing since the 70's is a Lifetime member of ASD & the new Vice President of our national organization. She has been a popular speaker at many conferences for many years. Sandee has an extensive background in a multitude of modalities, including NLP Trainer, Past Life Hypnotherapist, Inka Shamanic Practitioner, Ancient Healing Techniques, Core Belief Work, & much more. She has adapted & uses Dowsing as the core skill in all aspects of her work. She travels extensively, teaching & learning, & now resides in the White Mountains of North East Arizona.

Raymon Grace has credited Sandee Mac with being of aid to him.

DOWSING

THE ULTIMATE INTENSIVE

by *SANDEE MAC*

Are you ready to learn the ancient yet timeless art of dowsing? Far more than just "dowsing" for water, these are time-honored skills for discerning information not ordinarily available with the five senses. In this one remarkable day you will learn!!!

- ❖ History, concepts, & principles to become a highly skilled dowser.
- ❖ Hands-on training & practice with several kinds of dowsing tools.
- ❖ Skills to detect & block unbeneficial energies in your home & environment.
- ❖ Actual field experience & practice indoors & outdoor.
- ❖ Valuable & extensive (30+) handouts & charts to assist in you dowsing for:

Health & well-being	Finding water
Relationships	Geopathic zones
Spiritual work	Weather
Clearing negativity	Healing work
Magnet broadcast	Making decisions

All of this & so much more will give you a thorough grounding in the practical aspects of this ancient and sacred practice. Long thought of as a "Gift" few people had, we now know it is a remarkable "Skill" anyone can be correctly taught. This is the one skill that will not only insure self-sufficiency; it may even save your life! (Remember Katrina?)

- ❖ Attendance is limited to optimize individual attention...register early!
- ❖ A selection of quality tools will be available for practice or purchase at the class. All other class materials are included in the fee.

General Meeting Minutes October 3, 2009

Raymon Grace "Potential of Dowsing"

Announcements:

Our November speaker will be Sandee Mac. Dowsing Discussion Groups are ongoing on the 3rd Thursday of each month from 7-8:30 PM at two locations: home of Marge Hefty and home of Terry & Steve Klunk.

On Saturday, November 14th from 1-4, the Tucson Dowsers will sponsor a children's program, "Wizards School of Dowsing" presented by Terry & Steve Klunk. Some of you expressed an desire to help out at this program. If you'd like to participate, contact Terry at the Library table or call 520-531-8039. We are asking for donations of wire hangers to use for L-rods. Please drop them at the Library table.

Dr. Larry Babcock has information he would like to share with the group. You can pick up a copy at the Book Sales table. It will also appear in the next newsletter

Steve Klunk, President, introduced Raymon Grace.

Raymon believes that we need reasons to believe in ourselves and rely on ourselves. If you treated others as you wanted to be treated there would be no crime, no drug problems, no selling drugs to kids. When we live good responsible lives it makes a difference.

When Raymon started his Foundation, it

reached out to 10 countries. It is now reaching 35 countries. He is using his foundation to promote dowsing worldwide. Making the world aware of dowsing is making the world a better place. You don't have to ask permission to do anything to correct things that affect your life. You don't have to ask anybody about cleaning up the highways, or cleaning up the schools your children attend.

A group of people wanted to clean up Baltimore. Go to www.RaymonGrace.com and read how they did it.

Once a mind is expanded it can never return to its original size. Dowsing expands the mind.

Energy is impressed on matter. Energy follows thought. Focused thought, like dowsing and prayer, can achieve a positive result

Respectfully submitted,
Terry Klunk

In Memory of Doris Sphar

Doris E. Cihak Sphar 83, of Tucson, AZ, beloved wife of 61 years, of Paul J. Sphar, peacefully passed away September 5, 2009. Both Doris and Paul attended the very first meeting of the Tucson Dowsers and have been actively involved with the group ever since.

On behalf of the Tucson Dowsers we wish to extend our condolences to Paul and his family.

You know you're in Arizona if...

You can say "Hohokam" and people don't think you're laughing funny.

You see more irrigation water on the street than there is in the Salt River.

You can pronounce "Saguaro", "Tempe", "San Xavier", "Canyon de Chelly", "Mogollon Rim" and "Cholla."

You can understand the reason for a town named "Why."

You hear people say "but it's a DRY heat!"

You buy salsa by the gallon.

Recent Human Evolutionary Changes Require Increased MDR Amounts of Six Critical Elements

By Larry Babcock, Ph.D.
Tucson, AZ
October 1, 2009

On the Autumnal Equinox, Tuesday, September 22, 2009, the first genetic upstepping of the Second Phase of current human evolution occurred. Everyone on planet Earth whose Blood Mitochondria Index (BMI) exceeds 18,000 had their light (plasmoidal) body energy increased. Actually, the continuous power rating went up about 16.67%. This upgrade involves changes in the Minimum Daily Requirements (MDRs) of the following six elements

ELEMENT	% INCREASE	NEW MDR
Cobalt	45.7	5.1 mg
Zinc	40.9	24.1 mg
Copper	36.0	3.4 mg
Iodine	35.6	236. mcg
Manganese	35.2	7.3 mg
Chromium	31.1	291. mcg

required by the mitochondria in our physical bodies to maintain this increased power level:

An EMERGENCY ALERT was broadcast Thursday, October 1, 2009, at 5:17 PM to the mitochondria collective, with the assistance of REBEKKAH, number 4 of 20 of the Santa Catalina Mountains UNIVITATIA (Jinn). She is an 18th dimensional stellar level being who is a local administrator. I made a formal request to the collective that they need to convey their increased elemental needs and bridge the conscious-unconscious veil, because of this emergency situation. This would be an ideal time, I suggested, to verbalize these needs, rather than simply let them emerge into the conscious mind. Our request was broadcast worldwide.

We the people of the Earthbound human family were created equal. However, creation is a continuous process and we are no longer equal. About 10.255% of us are now in a more genetically advanced group, whilst the remaining 89.745% are not. The individual and mass psychological ramifications of this new division are worthy of serious discussion. Those of us in the higher group need to ponder this, because we humans have more than enough in—group vs out—group problems that we can't control already!

Here are the URL'S OF MY DOCUMENT, ENTITLED: "The AWAKENING and Evolutionary Ascension," which will provide the necessary background material for an understanding of the current situation:

Wizards School of Dowsing

As announced at the October meeting, Terry and Steve will be presenting what they hope will be the first of many free Dowsing classes for children, sponsored by the Tucson Dowsers.

This project has been talked about for quite some time. Some of you have expressed interest in assisting in such a program and

your participation would be most welcome. Please contact Terry and Steve at 531-8039 or TucsonDowsers@gmail.com.

If you have any wire hangers you are not using, please bring them to the Library table at the next meeting.

Below is our advertising information. Feel free to share it with your family and friends.

Bring Your Kids / Grandkids

Join us for some fun learning how to use Dowsing!

What is Dowsing?

Dowsing is an ancient art used to find water. Today it is used in many ways as a life tool. Its use is only limited by your imagination—you could use dowsing to find a lost object, to decide which movie to go see, or which video game would be the most fun.

What will I learn?

You will learn how to use a pendulum and L-rods to get “Yes” and “No” answers to your questions.

Definitions

by Joe Smith

DETRIMETAL ENERGY, this is a word describing certain energies that are harmful to humans, some times called noxious energies. They could be from several different sources.

CURRY ZONES, These geopathic zones were found by a DR. Curry in Germany, They run in a 45degree angle to N-S. They in them selves are not that bad. Only under certain conditions do they cause problems.

HARTMAN LINES, These were found by a Dr Hartman, also are geopathic zones only they run in a N-S direction. Just like the Curry they are not that bad by them selves.

EMF, electromagnetic frequencies, these come from any thing connected with electricity. The worst are Transformers and Junction boxes. Computers and printers are not good. Office copiers are really bad.

WATER ZONES, when clearing a house it is

necessary to check for zones running under the house. The water zones emit an electric energy that in combination to the Hartman and Curry zones work on your immune system.

SAFE TIME, This the time a person can stay in an area that has detrimental energy with out it bothering them.

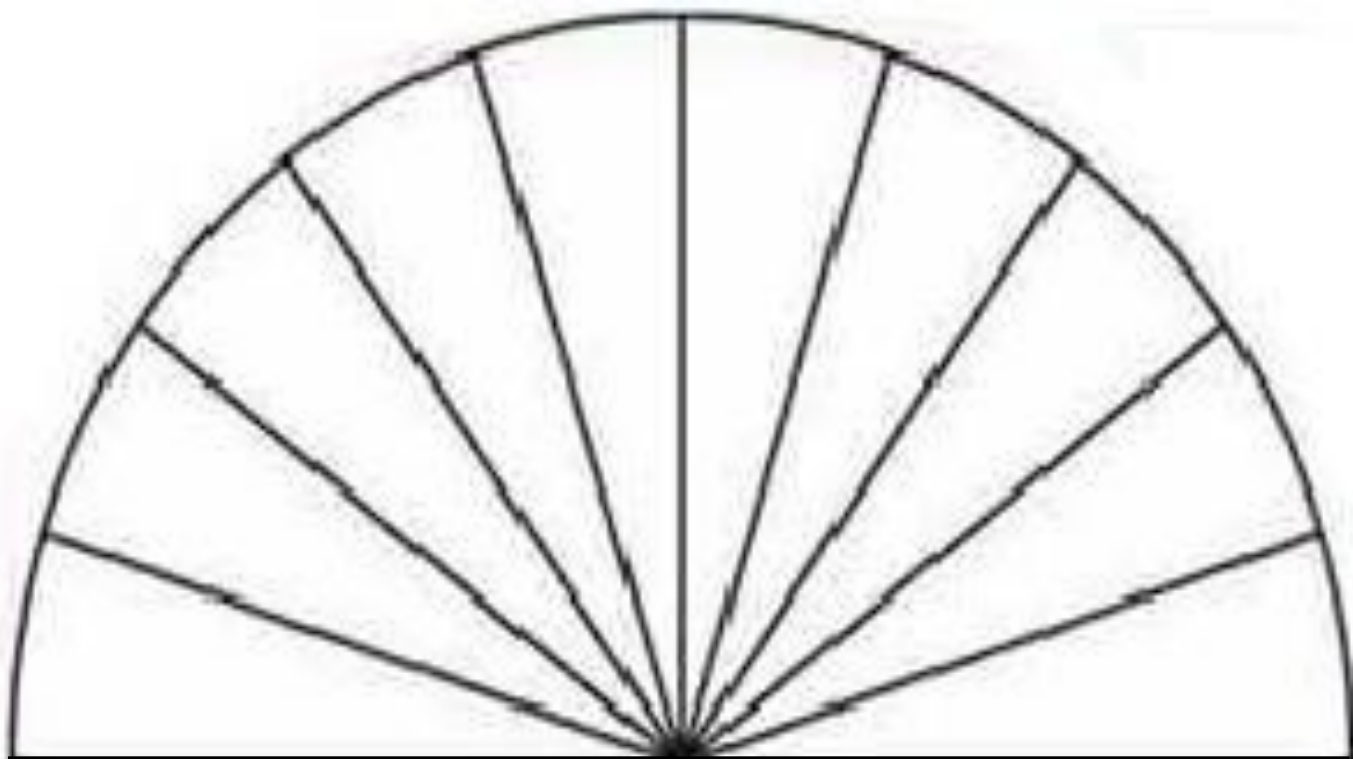

POSITIVE and NEGATIVE ENERGY. This has nothing to do with bad or good. Negatives in this case is like a battery, there are 2 posts, Positive and Negative. So when I mention Negative energy it doesn't mean it is bad.

REBAR, Steel bars used in construction work, sometimes used to deflect energy zones.

MAGNETS, used in around different electric boxes to cut the rate of EMF flowing from the Boxes, Can be simple 50 cent ones from Radio Shack.
