Join Sandee as she introduces us to the ancient art/science of Feng Shui. She will discuss the Black Hat Sect of Tibetan Buddhist Feng Shui, used to enhance the flow of energy in our home and workplace. The purpose of Feng Shui is to harness and adjust one's immediate environment which in turn harmonizes the inner self. This Black Hat form acknowledges that people are affected by their surroundings and environment. She will discuss the sacred "BAGUA," how we identify blockages, and apply "cures" to maximize the Chi or life force, of our environment. As Dowsers, we can measure this energy making Dowsing and Feng Shui a natural partnership.
